MEETING OF EDUCATORS

Distinguished Party From the North Greeted by Prominent Southerners

SOME SPLENDID SPEECHES MADE

Meeting at Columbia Opens With a Cordial Address of Welcome by Governor Heyward, Followed by the Annual Address of Mr. Robert C. Ogden, President of the Conference.

Columbia, S. C., Special.—The Conference for Education in the South opened its eighth annual session here Wednesday, with a large attendance of leading educators from both North and South present.

The Ogden train, containing a party of ladies and gentlemen from New York, Boston, Washington and other Northern cities, arrived at 3:10 p. m., and the visitors are being entertained in various homes in the city to which they have been invited. The party numbers ninety-five, being educators, literary men and women and business men interested in education. They came in on a special of ten Pullman cars, chartered by Mr. Robert C. Ogden, of New York. The members of the party are his guests for a nineteen day trip to different points in South Carolina, North Carolina and Virginia. During their stay in Columbia, they as well as the many hundreds of other visitors, mainly from the Southern States, are guests of the city of Columbia. A party consisting of the mayor of the city, the State Superintendent of Education, Editor Gonzales, of The Columbia State, two professors of the South Carolina College and several other prominent citizens of Columbia, met the party at Hamlet, N. C., and escorted it into the State. Every train coming into the city brings from all parts of the South visitors to the conference.

The conference opened its first session here with an address of welcome by Governor D. C. Heyward. The Governor said in part:

GOVERNOR HEYWARD'S SPEECH.

"Today throughout the entire South the schoolhouse bell is ringing. It rings from the university on the hill and it rings from the little schoolhouse by the roadside, and to you teachers who are present at this conference from our sister States of the South and from every portion of our own State, I wish to say that in welcoming you I must also congratulate you upon the great work you have done. I believe that you have accomplished more during the past forty years along educational lines than has ever been accomplished by any people in the same length of time. No people have ever worked so well or under the same conditions, and in your work you have been accorded loyal support by your people. In their days of poverty and in their days of prosperity the tax-payers of the South have shown a willingness and a desire to tax themselves to support the schools, not only for their own children—the white children of the South—but also for the children of anotder and dependent race. Though often misunderstood, they have never let their hearts fail them; they have never looked backward, but always forward, and today we can see in university and in college, in graded school and in common school, in better teachers and longer terms, a happy and prosperous people—aye, in smiling fields and growing cities, the result of their courage and determination.

"In welcoming you to South Carolina I welcome you to a State which has always had a deep interest in the cause in which you are enlisted. With us, the modern schoolhouse stands beside the college of a century. From the earliest history of our State our people have prized learning and cultivation. Before the Revolution, South Carolina sent her sons to Oxford and to Cambridge. Shortly after the Revolution we began to build colleges and to establish public schools. The first library in America to be supported in any degree at the public expense was that established in Charleston in 1689.

IMPORTANCE OF EDUCATION REALIZED.

"I am sure, however, it needs no argument to convince you that the importance of education in its highest sense has ever been realized by our people. The facts that I have just cited that before we had colleges of our own we sent our sons abroad, and the further fact that almost within sound of our voices stands South Carolina College—over 100 years old—these will show the spirit that animated our ancestors.

"As to what we are doing today for the sons and daughters of South Carolina, I have but to point you to the number of colleges of our State, and to our growing system of graded and public schools. The State supports Winthrop College for Women, and South Carolina College, the Citadel and Clemson for young men, and also a State college for negroes. In addition to this, each religious denomination supports one or more colleges which are doing excellent work. There are also many private colleges, several of which are well endowed. Contributing to these is our system of graded and common schools. Our State constitution requires that the General Assembly shall provide for a liberal system of free public schools for children between the ages of 6 and 20 years, and the constitution imposes an annual tax exceeding one-half of our entire State tax for general purposes. With us the fight to allow school districts to levy a special tax has already been won; it is incorporated in the organic law of the State, and we are now extending the battle lines to the various districts, 400 of which have already exercised this prerogative. New victories are constantly being gained along this line, and within the next few years we confidently hope to greatly enlarge our army of educational progress.

"During the past year we built 175 school houses, and we improved and equipped many more. These buildings ranged in cost from $300 to $40,000 apiece, and in this equipment are included 500 libraries. Two thousand and five hundred of our teachers last year attended summer schools in order to better equip themselves for their great work. It will require no prophet, my friends, to predict that, should we be again so fortunate within the next few years as to welcome you within the confines of this State, your eyes will behold vast improvement in our educational and industrial affairs.

"Pardon me for this apparent digression, which I hope will prove to you the interest we feel in you and in your work. Let me give you some added welcome to our State and to our capital city. In the name of the great cause which brings you here; in the name of every school and college in the State; in the name of those high interests which it is your mission to serve; in behalf of the people of our State, and especially in behalf of the people of our capital city, I welcome you, ladies and gentlemen, to South Carolina."

At the conclusion of the Governor's address of welcome, the annual address of Mr. Robert C. Ogden, president of the conference, was delivered.

PRESIDENT OGDEN'S ADDRESS

In the opening Mr. Ogden spoke at some length of the objects and history of the conference. Although this conference, he said, has no education body of authority, it yet has a very deep community of interest with the Southern Educational Board, the General Education Board, and in a lesser degree with the board of trustees of the Peabody fund, and the board of trustees of the Slater fund. These several boards are so thoroughly co-ordinated and sympathetic that every facility created by any is at the command of each and the commonage of aim is so perfect that waste by duplication or competition is impossible. The work of these boards and funds having been briefly dealt with, the speaker spoke of what had been accomplished. It is the leadership of the child that we follow here, he said, inspiring this great company more than curiosity, possible entertainment or social fellowship—is the interest of the child. And it was just the preparation of this pervasive influence that awaited the advent of the new movement for education which was unfolded in the triple alliance of the conference and the two boards.

This movement came at the psychological moment. Throughout this Southland, isolated and lonely, many able, thoughtful, well informed and solitary souls were brooding over the needy conditions of certain localities with which experience has made them painfully familiar. And with the perception of need was associated a conscious helplessness and vague, indefinite hopefulness, or was this condition of mind solely confined to the isolated and obscure? Men of large public affairs, women socially prominent, were both equally anxious and sadly doubtful. Here a voice had been raised, there a little local effort had been started, and beyond this the prophets were beginning both persuasion and provision. Then followed the awakening of the earnest and anxious thinkers. A strength of association was promptly created. Symptoms of many sorts indicated the educational epiphany that has commanded the admiration and respect of educators throughout the land, the encouragement of progressive citizens, the interest of statesmen. Certain facts may be briefly outlined.

PROGRESS OF LOCAL TAXATION.

Local taxation for education has made great progress, notably in Alabama, South Carolina, North Carolina and Tennessee. The constitution of the State of Georgia has been so amended as to facilitate local taxation for schools. The increase of public appropriations both through States and the local tax, for education, has aggregated many millions of dollars.

New school houses by hundreds, perhaps thousands, have replaced others that were lacking in comfort, space and equipment. Hundreds of inadequate schools have been consolidated and transportation has been supplied to scholars that have been incommoded by the changed conditions. School terms have been greatly lengthened, the qualifications of teachers improved, and compensation increased to meet the longer term and better service.

Laws against nepotism in education have been passed and thus a beginning has been made in the removal of a corrupt and debasing influence upon education. This is an incident in the divorce of public education from politics—an end most devoutly to be desired. Perhaps the most encouraging single element of progress is found in the formation of local and State organizations of citizens and educators for the promotion of public interest in education. In the cities of Virginia large audiences of the best people have been assembled by the commission to wait upon the teachings of men whose souls are awake to the needs of the children and whose tongues have been touched with the holy fire from the altar of public service. Such meetings have been held elsewhere with success and power. But Virginia's leadership is exceptional in persistence and thoroughness.

No doubtful curiosity of suspicion lurks in the background; no academic seclusion, no intellectual superiority, no cloistered exclusiveness now divides higher from popular education in the South.

Other prominent educators made splendid addresses. The meeting was an eminent success in every particular.

Second Day's Session.

The second day's session of the great educational conference was marked by exceptionally strong addresses by notable speakers.

At the Superintendents' Conference the State Superintendents of the following States were present: South Carolina, North Carolina, Georgia, Alabama, Texas, Tennessee and Arkansas. Each of these spoke on different phases of the recent progress of education in the Southern States.

Columbia, S. C., Special.—The Conference for Education in the South closed its sessions here Friday, and the conference adjourned subject to the call of the executive committee.

At the morning session of the conference, Mr. Robert C. Ogden, of New York, was unanimously chosen president; Chas. B. Aycock, former governor of North Carolina, was chosen vice-president. The following executive committee was elected to serve the ensuing year:

S. C. Mitchell, Virginia; Sydney J. Bowie, Alabama; R. R. Cousins, Texas; Clarence H. Poe, North Carolina; D. C. Caldwell, Louisiana; C. P. Gibson, Georgia; R. H. Jesse, Missouri; Dr. I. A. Jenkins, Kentucky; S. A. Mynders, Tennessee; J. H. Hineman, Arkansas; D. B. Johnson, South Carolina.

The other officers of the conference elected were: Secretary, B. J. Baldwin, Alabama; treasurer, W. A. Blair, Winston-Salem, N. C.

The following resolution adopted by the Association of Southern States Superintendents of Education, at its meeting on April 26, is given out for the first time:

"Resolved that the Association of Southern State Superintendents of Public Instruction, desires to express its appreciation of the valuable work of the Southern Educational Board, in co-operation with the educational authorities of the States, and of the spirit in which the work has been done for the past three years; and also to express gratification at the provision for the continuance of this co-operative work."

All the Southern States are represented except Tennessee, Mississippi and Virginia.

Mr. Ogden, in a brief and expressive speech, then pronounced the conference adjourned.

GOVERNOR GLENN SIGNS BONDS

All Will Be Ready By Time Bids Are To Be Opened.

Governor Glenn Wednesday morning signed each one of the two hundred and fifty $1,000 bonds that are being issued by the State for the purpose of paying off the judgment against the State in the noted South Dakota bond case, and all other North Carolina bonds of that class. His Excellency says he signed all the two hundred and fifty bonds in forty minutes and wrote his signature so that it could be read, too. The great seal of the State was also affixed to the bonds, and as soon as they are signed by State Treasurer B. R. Lacy, they will be ready for issuance May 10th, when the bids are to be opened.

Asheville, Special.—Calvin Baird, who, several weeks ago, attempted to commit suicide by hanging himself to a tree, but who was discovered in time to save his life, was tried in the Superior Court on the charge of attempting self-destruction, convicted and sentenced by Judge Neal to two years on the chain gang. Baird is an old negro, who for a long time resided in the Beaverdam section. One Sunday night several weeks ago, Baird left his home, and securing a piece of rope, proceeded to hang himself. He was discovered the following morning in an unconscious condition, cut down and medical aid given him. Baird was later brought to Asheville and placed in jail, where he has since remained.

A piece of timber that was defective was being sawed when a part of it about three feet long flew off from the saw and grazed the shoulder of a boy standing near and struck Oscar Smith just under the left breast. It came with such force as to break several ribs and cause internal injuries, from which he died in about thirty minutes.

C.: Would respectfully suggest the extreme use of the executive power as may exist by the coroner's jury or railroad commission for investigation of criminal negligence, local and management, that caused wreck of my train. Four hands killed and others injured, also Prof. and Mrs. Farnham. My impression is that the case is a bad one and needs drastic treatment.

"ROBT. C. OGDEN."

"Robert C. Ogden, Greenville, S. C.: I have referred your telegram to the railroad commission, who will immediately investigate wreck. Coroner's inquest will be held by county authorities."

GEN. FITZHUGH LEE

Stricken With Apoplexy While on Board a Train to Washington

DISTINGUISHED MAN PASSES AWAY

Had Been a Confederate Major-General Governor of His State, and Consul-General at Havanna, and also a Retired Brigadier-General in the U. S. Army.

Washington, Special.—General Fitzhugh Lee, United States army, retired, and one of Virginia's foremost sons, died at the Providence Hospital here Friday from an attack of appoplexy, which he suffered on a train while en route from Boston to Washington.

In the room when he died were Dr. Montgomery, one of the physicians at the hospital, Miss Dorsey, a relative, and a nurse, two of the attending physicians, Drs. Edie and Kean, having retired temporarily. A pathetic feature of the case is that although General Lee had a family consisting of a wife and five children, not one of them was with him at the time of his death. The general was 68 years of age.

Arrangements for General Lee's funeral, together with the selection of the place for interment of the remains, will not be made until after the arrival in Washington of Mrs. Lee, who is now on her way to Washington from Fort Oglethrope, Ga. Meanwhile the body will be prepared for burial and will remain at the hospital. It is possible that the body may be laid to rest at the national cemetery at Arlington, although it is expected that General Lee's friends may make an effort to have a site chosen somewhere else in Virginia, the State in which he lived so many years and with whose interests he was so strongly identified.

A widow and five children survive General Lee. Two of the boys are army officers and two of the girls are wives of army officers, while the remaining child is a young woman still in her teens. The children are Mrs. J. C. Rae, wife of Lieutenant Rae, now at Fort Oglethorpe; Lieutenant Fitzhugh Lee, of the calvary branch, now in Manilla; Lieutenant Mason Lee, of the Seventh Cavalry, who is now in San Francisco; Mrs. Anne Brown, wife of Lieutenant Brown of the Seventh Cavalry, who is now at San Francisco, and Miss Virginia Lee.

General Lee was stricken with appoplexy, the entire left side being affected, at 3 o'clock Friday morning, while on a train en route from Boston to Washington. The train had just left the Harlem river when the stroke came. The train bearing the general arrived in Washington shortly after 10 o'clock. Under the direction of Major Kean, United States Army, of the Surgeon General's office, the patient was removed to Providence Hospital.

A physician was taken aboard the train at Jersey City. At Philadelphia he gave place to another, who accompanied the general to Baltimore, where still another was taken aboard and made the trip to Washington.

General Lee had been spending a few days in Boston and was returning to Washington, on his way to join Mrs. Lee.

His Distinguished Career.

General Lee long has been a prominent figure in Washington, and he always was given a hearty reception wherever he went.

Prior to the civil war at the beginning of which he resigned his commission in the United States army, General Lee saw considerable frontier duty in moving against the Indians. He was an ex-cavalry officer.

His services in the Confederate army as a major general are well known, and during the interval between this war and his active work in the Spanish-American war, General Lee filled a number of important positions, including governorship of Virginia, the presidency of the Pittsburg & Virginia railroad, the collectorship of internal revenue for the Lynchburg district, and the consul generalship at Havanna.

Following his honorable discharge from the volunteer army on March 2, 1901, General Lee was appointed to the regular army with the rank of brigadier general, and with this rank he was retired in the March following.

Hail Goes Through Roofs.

Savannah, Ga., Special.—Dispatches from Southwest Georgia report a severe hail storm Friday. Near Hartsfield, Joseph Stovall, an old and well-known citizen, was killed by the blowing down of the house of his grandson John Stovall.

Russians Sighted.

Hong Kong, By Cable.—The steamer Stettin, which has arrived here, sighted from thirty to forty vessels of the Russian Second Pacific Squadron in Hongkohe Bay, Annam, (about fifty miles north of Kamranh Bay,) Thursday afternoon. Two cruisers, which had their decks stacked with coal signalled the Stettin to stop, and questioned her. The fleet was preparing for sea.

Formal funeral services over the remains held in Richmond, Va., Thursday. Brief services were held on Monday, however, at the Church of the Epiphany, on G street, many of the personal and official friends embracing the opportunity thus afforded to pay a last tribute of respect to the memory of the distinguished dead.

Prior to the services, the remains of General Lee, which had been lying in their casket in the Sunday school chapel of Epiphany Church since their removal from Providence Hospital, were conveyed to the auditorium of the church. Throughout the night and day they were surrounded by a guard, consisting of members of the local camp of Confederate veterans.

The church services were conducted by the rector of Epiphany Church, Rev. Randolph H. McKim, D. D., who is chaplain of the Washington camp of Confederate Veterans. He was an officer in General Lee's old command in the civil war, and the two were life-long friends. The services were very simple, being in accordance with the burial service prescribed by the ritual of the Episcopal Church. No funeral oration was pronounced.

The church was thronged with friends and acquaintances of General Lee and his family. The casket containing the remains was covered with floral offerings which had been received from individuals and organizations with which General Lee was

identified. Among them was a handsome wreath sent by the President and Mrs. Roosevelt.

The details of the arrangement of the services and escort of the body were completed by Major General Gillespie, Brigadier General Burton, Major Kean, and Captain Mitchie, United States Army.

The detail of eight non-commissioned officers of the Sevent United States Cavalry acted as body-bearers. Col. John T. Callaghan, commander, and the members of the camp of Confederate veterans constituted a guard of honor for the remains while they were being taken to the Pennsylvania station. The military escort consisted of a squadron of the Seventh Cavalry, a battery of field artillery and two companies of engineers, United States army. Shortly after noon, the cortege, headed by a band, moved to the railroad statoion via Pennsylvania avenue. In the column, in addition to the military contingent, were representatives of the civic societies of which General Lee was a member.

On arrival a tthe railroad station, the casket containing the remains was conveyed, with due ceremony, to the funeral car, in which it was conveyed to Richmond. The escort then was disbanded.

Mrs. Lee was accompanied on the special train to Richmond by her brother, Major B. H. Fowle; General Lee's brother, Captain D. M. Lee; Miss Virginia Mason Dorsey, Miss Laura Lee Dorsey, Dr. Robert F. Mason and Mr. and Mrs. Benjamin S. Minor. In addition to these members of the Lee family, many prominent army officers, including several who served in General Lee's Seventh Army Corps during the Spanish-American war, also accompanied the funeral party to Richmond. The train left for Richmond at 1 o'clock. The bodybearers of the Seventh Cavalry remained with the casket until Alexandria was reached. There they were relieved by a detail of an officer and eight enlisted men of the Alexandria Light Infantry. In turn, this detachment was relieved at Fredericksburg by a similar number of soldiers.

Remains Arrive at Richmond.

Richmond, Va., Special.—The special train bearing the remains of Gen. Fitzhugh Lee reached Richmond about 5.20 o'clock Monday afternoon and was met at Elba station, at the head of Broad street, by an imposing array of State military, Confederate veterans, State and city officials and memorial organizations. The casket containing the body was placed upon a black caisson drawn by six black horses, at the head of each horse being a member of the Richmond Howitzers in full dress gray uniform. A procession was formed and the march was taken up for the city hall to solemn strains of music from a band. The bells of the city were tolled as the procession moved, flags on the buildings were at half mast, and at frequent intervals along the way special emblems of mourning appeared in drapery over store fronts and other houses. The procession was made up of the Richmond companies of the Seventieth regiment, Virginia Volunteers; the Richmond Light Infantry Battalion; the Richmond Howitzers; Lee and Picket Camps of Confederate veterans; the Veteran Cavalry Association, Army of Northern Virginia; the Sons of Confederate Veterans, and the various ladies' Confederate memorial associations of the city.

The Seaboard has already won suits in which damages were claimed for the burning of the ice plant and for quantities of cotton that were burned at the same time. The contention in all these suits is that the fire started from sparks thrown by a woodburning engine.

HOW ABOUT ELECTION THIEVES?

Some days ago the News and Observer wrote an editorial blaming the Commissioner of Internal Revenue for accepting a money consideration in the case of a Winston whiskey dealer. We called the News and Observers attention to the fact that if his governor had not gone to Washington to intercede for this whiskey dealer, who by the way was not a distiller, the result might have been different. The local editor of the Union Republican commenting on the incident says:

"It is nothing more nor less than a surprise that the News and Observer should come to the support of Judge Boyd, and it is given due credit for so doing. However, the News and Observer is painfully silent on the agreement with Mr. Yerkes and what influences were brought to bear to obtain this agreement. If Gov. Glenn had not interceded, there is no doubt but that Judge Boyd would have sentenced all convicted by jury or submission and have done just what the paper so earnestly advocates. In the eyes of the News and Observer it is all right for election thieves and ballot box stuffers to go unpunished. It is all right for the Treasury of the State to be thrown open for their defence. It is all right to appeal to Senator Simmons and incite prejudice and partisan feeling in the Deal-Samuels Wilkesboro scrimmage, rather than let the law take its course, and it is all right for Gov. Glenn, our Chief Executive, to go to Washington and intercede for a transgressor of the law, who admits his guilt, and in which act, while there may be no law against, there is a principle and a precedent involved, which had it been a Republican Governor, would have caused a hue and cry, with the News and Observer in the lead, far more serious in cause and effect than the trumped up sham and disgraceful effort to impeach the Republican Supreme Court Judges a few years since. Truly consistency is a jewel and justice is its diamond setting. In commending Judge Boyd the News and Observer is making a good start in a policy it should long ago have adopted."

NO IMMIGRATION BUREAU NEEDED.

South Carolina for many years has been trying every means to secure more immigrants for that State. But Tillmanism in that State, like Simmonism in this State, has driven away all the most of the good labor. South Carolina has opened headquarters in New York City, under the charge of the State Commissioner of Immigration, and an effort will be made to induce new comers to settle in South Carolina. If that State wants settlers to locate within her borders and cultivate her 14,000,000 acres of unoccupied land she must first rid herself of the last vestige of Tillmanism. If North Carolina wants immigrants she must first down Simmonism and its evil influences. Prior to the advent of Simmonism in this State, scarcity of labor on the farms in North Carolina was unheard of.

"Did you ever notice it when Josephus Daniels takes snuff, Varner and his kind of Democrats, sneeze?" —Davie Record.

And had you noticed still further that when there is talk of irregularities and non-performance of duty in a democrats office, as is talked about Mr. Varners office, the News and Observer does not take snuff, but sits back and smokes the pipe of peace and calls all other democratic papers radical papers that won't do the same.

Raleigh's new democratic primary law stated that only "white men" should participate in the primary. However, a big negro walked up to the polls and voted in same ward as the editor of the News and Observer, and no objection was raised, because he was a "dimmycrat" (we suppose his father was a democrat also). But in the fourth ward when a voter with some indian blood in his veins voted against the ring the case was taken to the courts

Ever since Chicago's new democratic mayor, Mr. Dunne, has been in office, rioting, and in some cases murder has been the order of the day between some of the trusts and the working men. The voters of Chicago have "done it" sure enough.

This is some more democratic good government of which we have had samples at home.

WANTED—by the democratic immigration bureau, laborers to settle in North Carolina, who will take the oath to vote the democratic ticket. Others need not apply.

It took two primaries and an election for Raleigh to get her city officials, and still she might have done better in selecting most of the officers.

Wad-dell, the man who showed the whitetfeather in 1900, will become mayor of Wilmington to day.

RIOT IN CHICAGO

A Riot Between Union and Non Union Teamsters. Many Wounded

Chicago, May 2.—The death of one man and the injury of scores of others was the immediate result of to-day's fighting between the striking teamsters and their sympathizers on one side and the police and the non union men on the other. There were riots in all parts of the city. Men were clubbed and stoned almost to death within a square of police headquarters and five miles away men were shot down in the streets. At a hundred places between these two extremes of distance there were assaults and fights in the streets. Non-union men were pelted with stones, bricks bricks and every conceivable sort of missiles. They were dragged from their wagons, beaten, clubbed and stamped upon In return the non-union men, although hopelessly outnumbered in every stuggle fought desperately. In several instances they drew their revolvers and emptied them into the crowds that pressed around their wagons, pelting them with stones and threatening their lives.

The outlook for to-morrow is for more fighting, and there is not the slightest evidence of the approaching end of the strike.

INSANE WOMAN IN CHURCH CHOIR

Mysterious Stranger Intruded Upon the Practice and Takes Charge

Raleigh Post.]

The choir of the Edenton Street Methodist church had an experience last Saturday night which will not soon be forgotten. An insane woman suddenly appeared in the church, took charge of the choir and assumed the command.

Saturday evening is the regular time for the choir rehearsal. Mr. A. C. Jackson was drilling the singers with his usual care and precision when the choir looked up and to the astonishment of all beheld a solitary woman standing in the center of the dimly lighted church waving her arms and keeping time with the music. The first idea that struck the minds of the singers was to ignore the strange visitor and proceed with the music. However, little progress had been made with the next selection before in a shrill voice the intruder commanded the choir to be silent. The music forthwith ceased and, while the singers felt the most violent trepidation, the strange woman advanced slowly to the rail in front of the pulpit,

"I do not like your music," she observed.

"We are sorry," came from a weak voice near the organ.

"Why do you not sing some good old familiar tune in which I can join and help you out?" inquired the stranger.

The choir meekly apologized, but attempted to explain that it was necessary for them to practice these selections since they were to be sung on the next Sabbath morn.

"That makes no difference," declared the mysterious woman, "Sing I say." The choir began to sing manfully and the stranger joined in with more vim than accord. "Now sing an old favorite of mine," commanded the interloper, and she advanced upon the choir and pushed herself among them. The situation was becoming serious. The choir shrank back in fear and trembling and one slipped out the back way, ran to a nearby house and telephoned to Supt. McKee to know if a patient had escaped from the hospital for the insane. He replied that no one was missed. For nearly half an hour the unknown woman kept the choir at her beck and call. First they sang this hymn to gratify her whim and then another. Finally she seemed satisfied and withdrew from the church without anyone learning her identity. No one accompanied her away.

Mr. Bryan is riding in the democratic band wagon but the notorious gambler Tom Taggart, his advance agent and bill poster, is holding the lines, and August Belmont, agent of the Rothschilds and Pat McCarron; attorney for the Standard Oil trust, are at the brake, so what can Bryan do? He can go into a national convention and take what is given him, as he did in 1904.

That's what he will do and his two by four followers will say "me too"—Peoples Paper.

The Commoner says that Gen. Jas. B. Weaver was toast-master at a Jefferson banquet of Iowa democrats on April 1st. This must have been some kind of an "April fool" trick. It has not been so many years since the democrats were cussing General Weaver by note and telling how he stole chickens in time of the Rebellion. Jefferson democracy, did we understand you to say? Bah! Rats!—Yellow Jacket.

"The people who wear the badge and carry the name of Democrat are getting further and further from the foundation principles of the party—Charlote Observer.

Right, you are, sir, and they have drifted so far away that no pilot will ever be able to steer the boat to safe moorings. Bryan is not only wearing the badge, but he is in the saddle, riding a prancing steed that is going to carry him to the front. There is no Democracy such as the Observer would have. The foundation has crumbled; It has been knifed to death, and it is dead It is socialism or nothing.—Davie Record.

The democratic papers cussed a blue streak and took on at a terrible rate because of the length of President Roosevelt's message to Congress. They vowed that no man living could have said so little in their thirteen columns of type. And then when he delivered his inaugural address, which was brief and pointed, they flew into another spasm because of its brevity—swore it was weak and bobtailed and disappointing. All of which goes to show that you can't please a democrat, no matter what you say or how you say it. Spin it out long, and they cuss; cut it short and they cuss some more. And the truth is there is no use listening to a droted word they say.—North State.

It will be well for our people to keep their eyes on the unwonted activity in railroad enterprise in North Carolina. It is said that the Cape Fear and Northern Railroad, which at present extends from Apex to Dunn, will be extended to Goldsboro where it will connect with the Atlantic and North Carolina Railroad. This means that Beaufort will be in short, direct communication with the West Virginia coal fields, which fact will go far in inducing the Government to allow large appropriations for the development of Beaufort harbor. It is said that one thousand men will be at work on the Cape Fear and Northern this summer.—Raleigh Christian Advocate.

What does the Labor Commissioner of North Carolina do to earn his salary? His report, if there was one, for the two years ending January last, showed one lone case of violation of the law—that is, Mr. Varner said there was one "suspect" and he was going to investigate that case; but if there ever was such an investigation we never caught up with it. If it takes him two years to run upon a "suspect" how long will it take him to run down a real, live case There are people who believe the law is violated every day and in numerous cases. It has been so shown by competent witnesses. It is a crying shame how some of these little girls and boys are worked.—Davie Record.

When the amendment was passed the Democrats said that the annoyance of a new registration so often would be done away with. Have they made that promise good? Every voter can answer. Every time an election is ordered, and that is pretty often these days, the democrats say you must register again if you want to vote. Why do good, honest, upright voters have to register so often? Think about the cause of this and you may draw some inferences which may be of value to you in the time to come. The registration books are in the hands of democrass and what they have done in the past can be repeated in the future. The registrar for Lexington, Mr. A. C. Harris, is honest to the core, possibly all in Davidson county are, but why this new registration so often? Let the Democrats answer —North State.t

SIXTY TWO KILLED IN RIOT

Bitter Feeling Against Russian soldiers More Bloodshed May Follow

Warsaw, May 2.—The Day death roll totalled sixty-two including ten persons who died in the hospitals during the night. Probably two hundred were wounded.

Some minor disturbances occurred to-day in different sections of the city but no casualties have yet been reported.

The population is most bitter against the military and the government officials expect many attempts at revenge upon the officers commanding the troops, all of whom are known.

NAN'S CASE WITH JURY

The Trial of the Chorus Girl on Charge Murdering Ceasar Young comes to a close.

New York, May 2.—Nan Patterson should know her fate to-morrow

The last word of the prosecution, that Bookmaker Young could not have not killed himself and that she must have murdered him, was said by District Attorney Rand at 5 o'clock to-day. Recorder Goff will charge the jury to-morrow morning, and it is probable that he will take a couple of hours; so by noon, or soon after, it will be left to the jury to decide whether she is innocent or guilty.

The Russian Squadron

Saigon, French Cochin-China, May 1.—The Russian squadron is lying off Port Dayet, forty miles north of Kamranh Bay, and in Biuhkang Bay (near Kamranh Bay) outside of territorial waters.

Russian, German and British transports are off Cape St. James, near Saigon, and in the Saigon river.

The French naval division has been mobilized to preserve neutrality in French waters.

Is France Neutral?

Tokio, May 1.—It is believed that Admiral Rojestvensky continues to to use the ports of Indo-China for the porpose of obtaining coal and other supplies and for maintaining communication with St. Petersburg, and the Japanese press is again questioning the faith of the recent assurance of France. The government here is silent, but it is believed the ministers are preparing to renew the neutrality question with France.

Press Association to Meet at Asheville.

Asheville, N. C., April 49.—Information was received here to-day that the Virginia Press Association had accepted an invitation to meet with the North Carolina Association in this city during the latter part of June or first of July and that probably 300 delegates and visitors would attend. The sessions of the joint associations will be held at Kenilworth, where the delegates will stay. It is expected that a number of prominent men outside of newspaper circles will be in attendance.

TERRIFIC RACE WITH DEATH.

"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no bene fit, until I began to use Electric Bitters. So wonderful was their effect that in three days I felt like a new man, and to-day I am cured of all my troubles." Guaranteed. For sale at all drug stores; price 50c.

A CREEPING DEATH.

Blood poison creeps up towards the heart, causing death. J. E Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25c. For sale at all drug stores.

President to Meet Foreign Railroaders.

Washington, May 2—It is learned to day one reason that the President curtailed his hunting trip was for the purpose of greeting the foreign delegates to the International Railway Congress, which will be in session from May 4-13.

According to the revised plans the President will arrive here the morning of May 12th. That afternoon Mrs. Roosevelt is to give a tea for the members of Congress at the White House at which the President will be present.

Whether he will make an address is not known but arrangements are on foot to have him address the Congress at its final session at the new Willard.

How Is Your Heart?

Is your pulse weak, too slow, too fast, or does it skip a beat?

Do you have shortness of breath, weak or hungry spells, fainting, smothering or choking spells, palpitation, fluttering, pains around the heart, in side and shoulder; or hurt when lying on left side?

If you have any of these symptoms your heart is weak or diseased, and cannot get better without assistance.

Dr. Miles' Heart Cure strengthens weak hearts, and rarely ever fails to cure heart disease. Try it, and see how quickly you will find relief.

"About January 1st, 1902, I took down with weakness and dropsy, and gradually grew worse. I was told by my family physician that my case was hopeless. My neighbors and family had given me up to die. My limbs and body were swollen to one-third larger than normal size, and water had collected around my heart. For at least three months I had to sit propped up in bed to keep from smothering. I sent for five bottles of Dr. Miles' Heart Cure, and by the time I had taken them all I was entirely cured. I feel better than I have for twenty years, and I am able to do any kind of work on my farm. My attending physician told me that if it hadn't been for Dr. Miles' Heart Cure I would now be in my grave."
L. T. CURD, Wilmore, Ky.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

WHY HE VOTED FOR ROOSEVELT

Mr. Jas. H. Pou Got the Worst of a Colloquy on social Equality

The Democrats for alderman from the fourth ward in Raleigh had to take their contest into the Superior Court to see which candidate had received the most illegal or fraudulent votes. The main contest seemed to be over David Nelson's vote. One side contested he was a negro while he stated he was one part indian. During the case Mr. Fann of this city was called as a witnes. Because it was found that he did not vote for the ring candidate for alderman, Mr. Pou attempted to make fun of him for voting for Roosevelt. But Mr. Pou soon had to give up and he told Mr. Fann to say anything he wanted to.

The following is the colloquy as given by the reporter of the Post.

"You don't approve of white men going with negroes do you?" asked Mr. Pou.

"No, I don't," replied the witness.

"Well who did you vote for president and governor in the last election?" asked the attorney.

"I voted for Roosevelt and Harris," was the reply.

"What, you, such a strong white man, voted for Roosevelt?"

"Yes, and I'll tell you why Cleveland caused me to walk the roads and beg my bread. I don't ever expect to vote a democratic national ticket again."

"Now which turned your stomach, this poor fellow Nelson working in the field with negroes or President Roosevelt eating with a negro, Can you axplain to us how in the world a strong white like yourself voted for a man who ate with negroes?" asked Mr. Pou in his gravest manner."

"Yes, I'll tell you about that too," said the obliging witness "I had just as soon eat with a negro as do like some of these rich folks here in Raleigh. They put there wives and daughters in a buggy beside a negro and let im drive them around and blow his breath in thtir faces. I had just as soon eat with a negro as do that."

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Y., on every bottle.

Home of Swamp-Root.

Sampson County.

This column will be devoted each week to communicatians and general news pertaining to Sampson County.

The People's Paper, of Charlotte, has discovered a serious state of affairs in Sampson county. It says:

"Sampson county, this State, according to the last census has a population of 26,380. When the last Legislature assembled there was 82 commissioned magistrates in the county, the Legislature commissioned 48 new ones, making 130. If the State sends another set of men of the same caliber to Raleigh, Sampson county women and children will have to work the public roads, all the able-bodied men will be excused on account of the J. P.'s to their name"

This is not the only county in the State that is magistrate-ridden, and the most serious part of it is how are all these magistrates, many of whom have made a living out of their office, going to make a living. It is too great an incentive to cause them to drag up poor fellows for matters of no importance and bleed them for costs. This is one of the greatest evils that our recent Legislatures have inflicted upon North Carolina.—Union Republican.

[In fairness to the Representatives from Sampson we will state these magistrates were apgointed by a democratic legislature, and not the nam s suggested by the members from the county. The members from Sampson tried to get local self government, but democrats don't believe in government by and for the people—Ed]

HAMMOND SHOOTS HIS WIEF

A Tragedy on the Street in East Winston.

Winston-Salem. N. C., May 1.—Mrs. J. W. Hammond was shot and mortally wounded by her husband here, dying from the effects of her wound early Sunday afternoon. It is said that the two had not lived together for some time and that Hammond approached her on the street in East Winston and after a few words threatened to shoot her. Several men standing near saw a revolver in his nand and rushed to the woman's assistance, but before they could overpower him he had fired, the ball taking effect just above his wife's right hip. She was at once taken to the hospital and given medical attention.

Cases of Haigh and Myrover Called in the Court at Fayetteville.

Fayetteville, N. C., May 1.—The cases of embezzlement against John C. Haigh and George Myrover, formerly cashier and teller of the Bank of Fayetteville, were called to day. The defendants asked for a bill of particulars, showing dates and amounts of alleged shortages as they were officials for a number of years. This will be furnished tomorrow. The prisoners are accused of practically wrecking the bank, which is a state institution, securing some thousands of dollars.

Casus Belli.

"Now, the trusts—" began the patent-churn man, addressing the washing-machine agent. "The trusts. let me tell you, are—"

"Here, now, gentlemen!" remonstrated the landlord of the tavern at Polkville, Ark. "That's what the fight here yesterday started about; and it's goin' to cost me three or four dollars for new window glass, alone!"—Tom Watson's Magazine.

A HAPPY MOTHER

WEATHERFORD, TEXAS. May 14, 1903.

Before my baby was born I was in great misery. I was just able to be about but just as soon as I began to take Wine of Cardui, which had been recommended to me, I felt much better. In fact I feel that if it had not been for this medicine I would not have been strong enough to live through childbirth. But that was made comparatively easy by taking your medicine for four months before baby came. Wine of Cardui restored my health as I took it two months afterward. I cannot speak too highly of Wine of Cardui and I am glad to endorse it

Mrs. C. C. Wood

TREASURER, YOUNG MATRON'S CLUB.

Wine of Cardui is a powerful tonic which acts on the generative organs of women, regulating menstruation and giving tone and strength to the organs which inflammation and weakness have affected. It cures nineteen out of every twenty cases of bearing-down pains or ovarian trouble.

Wine of Cardui cures barrenness and aids the mother in conserving her strength for the ordeal of childbirth. After that event the Wine prevents dangerous flooding and helps mothers to quick recovery. Wine of Cardui is the one medicine a mother should use before and after childbirth.

All druggists sell $1.00 bottles Wine of Cardui.

SAVED BY DYNAMITE

Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross, Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights Two physicians could not her; so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which eased her coughs, gave her sleep and finally cured her." Strictly scientific cure for bronchitis and La Grippe. For sale at all drug stores, price 50c and $1.00; guaranteed. Trial bottle free.

TORTURING HUMOR

Body a Mass of Sores—Called in Three Doctors But Grew Worse—Cured by Cuticura For 75c.

"My little daughter was a mass of sores all over her body. Her face was being eaten away, and her ears looked as if they would drop off. I had three doctors, but she grew worse. Neighbors advised Cuticura, and before I had used half of the cake of soap and box of ointment, the sores had all healed, and my little one's skin was as clear as a new-born babe's. I would not be without Cuticura if it cost five dollars, instead of 75 cents, which is all it cost us to cure our baby. Mrs. G. J. Steese, 701 Coburn St., Akron, Ohio."

When the Word is hidden in the heart it is seen in the life.

Dumbness Cured by Cold.

A miraculous cure has just been effected by the cold weather at Paulhaquet, Auvergne, France. John Rougier, fifty-four years of age, an agricultural laborer, lost his speech in 1887 after a severe attack of typhoid fever. On going to work as usual he was suddenly seized with faintness owing to the extreme cold, and would have been frozen to death had not some passers-by come to his assistance and restored him to consciousness. It was then found, to the great surprise of every one, that he had regained his powers of speech.

South America is Awake.

There are 27,800 miles of railway now in full operation in South America, and Argentina has 11,000 of these miles. This is only one sign of what has consistently been done by successive governments in those much-troubled republics.

Against Rate Reduction.

Atlanta, Ga.—The recent proposition of J Pope Brown, Chairman of the Georgia Railroad Commission, to reduce the passenger rate in Georgia from three to two cents per mile was protested against by the Brotherhood of Locomotive Engineers, the Order of Railway Conductors, and unions of the blacksmiths, machinists and telegraphers, boilermakers, railway train men, carpenters and joiners, clerks and car men. These organizations employed an attorney especially to represent them, who urged that such a reduction would work against the prosperity of the State and lead to a reduction in the number of railroad employes as well as of their wages. The Travelers' Protective Association also protested that a reduction as proposed would result in fewer trains and poorer service.

Fierce Conflict Between Officers and Populace in Warsaw

A REIGN OF TERROR NOW EXISTS

Cossacks and Infantry Were Apparently Uncontrollable, Firing Wantonly Into Crowds of Demonstrators, and Workmen, in Retaliation, Resorted to the Use of Fire Arms and Bombs.

Warsaw, By Cable.—Nearly one hundred persons were killed or wounded in disturbances in various quarters of Warsaw Monday. The troops apparently were uncontrollable, and violated all orders to act with moderation. They fired into crowds of demonstrators, and workmen, in retaliation, resorted to the use of firearms and bombs. Many women and children are among the dead and dying. What approaches a reign of terror exists, the city presents a most gloomy aspect, and the temper of the entire community is augurs ill.

May Day opened with every prospect that the recent gloomy forebodings would find contradiction in a peaceful ending. Glorious weather ushered in the beginning of the celebrations and all factories, shops and offices of every description were closed. The streets were crowded from early in the morning with gaily dressed people and troops.

No untoward incident was reported until after noon. The first disturbances occurred between 1 and 2 o'clock p. m., when a procession of several thousand workmen carrying red flags marched along Zelazna street. The demonstration was quite orderly, and proceeded without molestation for some distance. Suddenly several squadrons of Uhlans appeared, but without interfering with the procession, and took up a position along the sidewalks while the workmen passed through the lines. Then a company of infantry approached from the front, and immediately the calvary charged into the procession, driving it with the flat of their swords into a disorganized mass. When the calvary withdrew the infantry fired a volley, whereupon the demonstrators turned and fled. The infantry continued to discharge volleys into the retreating, shrieking multitude. Thirty-one persons were killed and many wounded, and of the latter it is believed that fifteen will die.

SHOOTING UNPROVOKED.

The shooting is described as having been quite unprovoked. It has aroused the most intense indignation among all classes in Warsaw. Many of those who were killed or wounded were shot in the back, showing that they were running away when they were struck.

Another terrible scene was enacted at 5 o'clock p. m., at the corner of Selota and Sosnore streets, when workmen fired from behind a wall at a patrol, which immediately opened fire on the passing crowds, killing or wounding twenty persons.

The first bomb throwing occurred at 9.35 o'clock, when a bomb was thrown into a Cossack patrol near the Vienna station. Three Cossacks and one policeman were killed, and two women who were leaving the station at the time were severely wounded by the explosion of the bomb. Cossacks and infantry fired a number of volleys, and it is reported that many persons were killed or wounded. Troops surrounded the whole neighborhood. It has been impossible up to the present time to secure accurate information as to the casualties of this affair.

Argument Begun in Patterson Case.

New York, Special.—The evidence in the Patterson trial being concluded, the argument of counsel followed. The defense has set up a strong plea on the suicide theory.

"This case is one of deliberate murder or suicide. There can be no manslaughter about it. There should be no compromise verdict. She is either guilty of murder in the first degree or not at all." These are the words in which Abraham Levy, counsel for Nan Patterson, brought to a close Monday afternoon his five-hour argument in defense of the former chorus girl charged with the murder of Caesar Young.

During the long argument Miss Patterson faced the jury unflinchingly. The court room was crowded, most of the attendants being women, who struggled to get a look at the defendant. At one time during the afternoon the judge was compelled to stop Mr. Levy while the court officers expelled from the room some women who persisted in discussing the case in audible tones, to the annoyance of all present.

President Speaks at Church.

Glenwood Springs, Col., Special.—Unique in the history of Colorado was the church service held at the old Blue school house on West Divide creek Sunday, attended by President Roosevelt and his hunting party and all the ranchmen and their families for miles around. The President and party attended dressed in their hunting clothes. After the sermon by the pastor the President addressed the large audience for ten minutes, speaking easily in his usual style. He then shook hands with the entire crowd. There was much enthusiasm.

Still off Annam Coast.

Saigon, French Cochin-China, By Cable.—The Russian squadron is lying off Port Dayet, forty miles north of Kamranh Bay, and in Binh Kang Bay, near Kamranh Bay, outside of territorial waters.

Russian, German and British transports are off Cape St. James, near Saigon, and in the Saigon river.

The French naval division has been mobolized to preserve neutrality in French waters.

Defaulter Arrested.

Macon, Ga., Special.—According to a message to Sheriff Mayo at Davisboro, Ga., from the chief of police of Los Angeles, Cal., Maro S. Potter, the defaulting cashier of the Davisboro Bank, who skipped last fall, leaving a shortage of $25,000, was arrested in that city on the identification of T. Hall, a former citizen of Davisboro, who happened to meet Potter on the street. Sheriff Mayo will leave at once to return the prisoner to this State.

NORTH CAROLINA CROP BULLETIN

Conditions as Given Out by Department of Agriculture.

Seasonable weather prevailed during the week Monday, May 1st, 1905, which was very favorable both for farm work and the growth of crops. While the weather was a little cool during the first few days the temperature rose rapidly, reaching as high as 88 degrees, so that most of the week was warm with abundant sunshine; the mean temperature averaged over 4 per cent daily above the normal. Refreshing showers occurred on the 28th or 27th and 29th which were needed in most places and proved highly beneficial. In a few counties the rainfall was sufficiently heavy to interrupt plowing towards the close of the week, but generally just sufficient rain fell to keep the soil moist and in an excellent condition. A few reports were received of severe local storms with hail in the northeast portion of the State (Chowan county). The warm, showery weather was conducive to rapid germination of seed and the vigorous growth of crops of all kinds. Farm work is still somewhat behind in some sections, but rapid progress was made during the past week. Crops showed marked improvement, the recovery from the freeze of the preceding week having been quite rapid.

A large quantity of corn was planted, and this work is well advanced towards completion; corn is coming up in good stands, and in southern counties the early crop is receiving its first cultivation; lowlands have not yet been planted. Planting cotton is also proceeding actively, a large portion of the crop having been put in during the past week; evidences point to a definite intention on the part of farmers to materially reduce the acreage in cotton; about all the cotton has been planted in the extreme southern portion; cotton is germinating rapidly and promises good stands. Planting peanuts is under way. Transplanting tobacco has commenced in several counties (Pitt, Johnson, Columbus, etc.) the plants having made rapid growth and are healthy and vigorous; a scarcity of plants is reported from very few counties. Wheat, fall oats, rye, as well as spring oats continue to make vigorous growth and are exceptionally fine in most of the important grain-growing counties of the State; wheat is stooling nicely. Grasses and clover are also fine, pastures are excellent and stock in very good condition.

Large shipments of truck crops and strawberries are now going North daily; Irish potatoes that were cut down by frost are coming out nicely and look well; very few potato bugs are reported. Gardens are being cultivated and are improving. Much fruit of all kinds appears to be uninjured and a fair or even large crop is reported.

A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate Nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes:

"I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use.

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would bloat after eating and frequently become nauseated. I had an acrid discharge and pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound. Experience has proved this.

It is well for women who are ill to write Mrs. Pinkham, at Lynn, Mass. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is free and confidential.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Costly Investigation.

Mayor John Weaver of Philadelphia is the proud father of a boy named Roy, who is of an investigating turn of mind. On his last birthday Roy was presented by his father with a handsome watch. The very next day Mr. Weaver came suddenly upon his young hopeful in the act of dissecting the timepiece. In his hand he held the empty case, and all around him, in picturesque confusion, lay the delicate works.

"I was only trying to find out if you had been cheated," remarked Roy. "I read the other day that a watch had 175 different parts, and I just wanted to be sure they were all here."—New York Times.
